WELCOME

We believe exceptional weddings begin with thoughtful planning, beautiful design and attention to every detail.

With qualifications in Floral Design, Styling & Décor and Business Management, alongside experience at one of Pretoria's leading wedding venues and over 80 successfully planned and coordinated weddings, our team brings both industry expertise and creativity to every celebration.

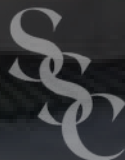

We quite literally think in folders, combining organisation with our love for weddings to bring your vision to life while making the journey from "Yes" to "I do" feel seamless, exciting and stress-free.

OUR APPROACH

We believe the best planning experience is one where you feel informed, organised and confident every step of the way.

From beginning to end, your wedding is carefully structured through a collection of shared, live planning documents, giving you access to updated budgets, suppliers, timelines, checklists, design details and all the important information in one place.

With everything updated as we plan, you'll always know where we are, what's been completed and what comes next, creating a planning journey that feels seamless, exciting and stress-free.
